

Lessons learned deploying ML in industry

30th March, 2022

digital natives

unit8.com

85%+

ML projects will
fail to deliver
value

*According to Gartner

Business first

Start with the value

good data > big data

A portrait of Andrew Ng, a man with dark hair, wearing a light blue button-down shirt, looking slightly to the right of the camera with a slight smile. The background is a blurred office environment with some lights.

Andrew Ng

“From model
centric AI
to Data
centric AI”

A satellite view of Earth at night, showing the curvature of the planet and the glowing lights of cities and continents. The text is overlaid on this background.

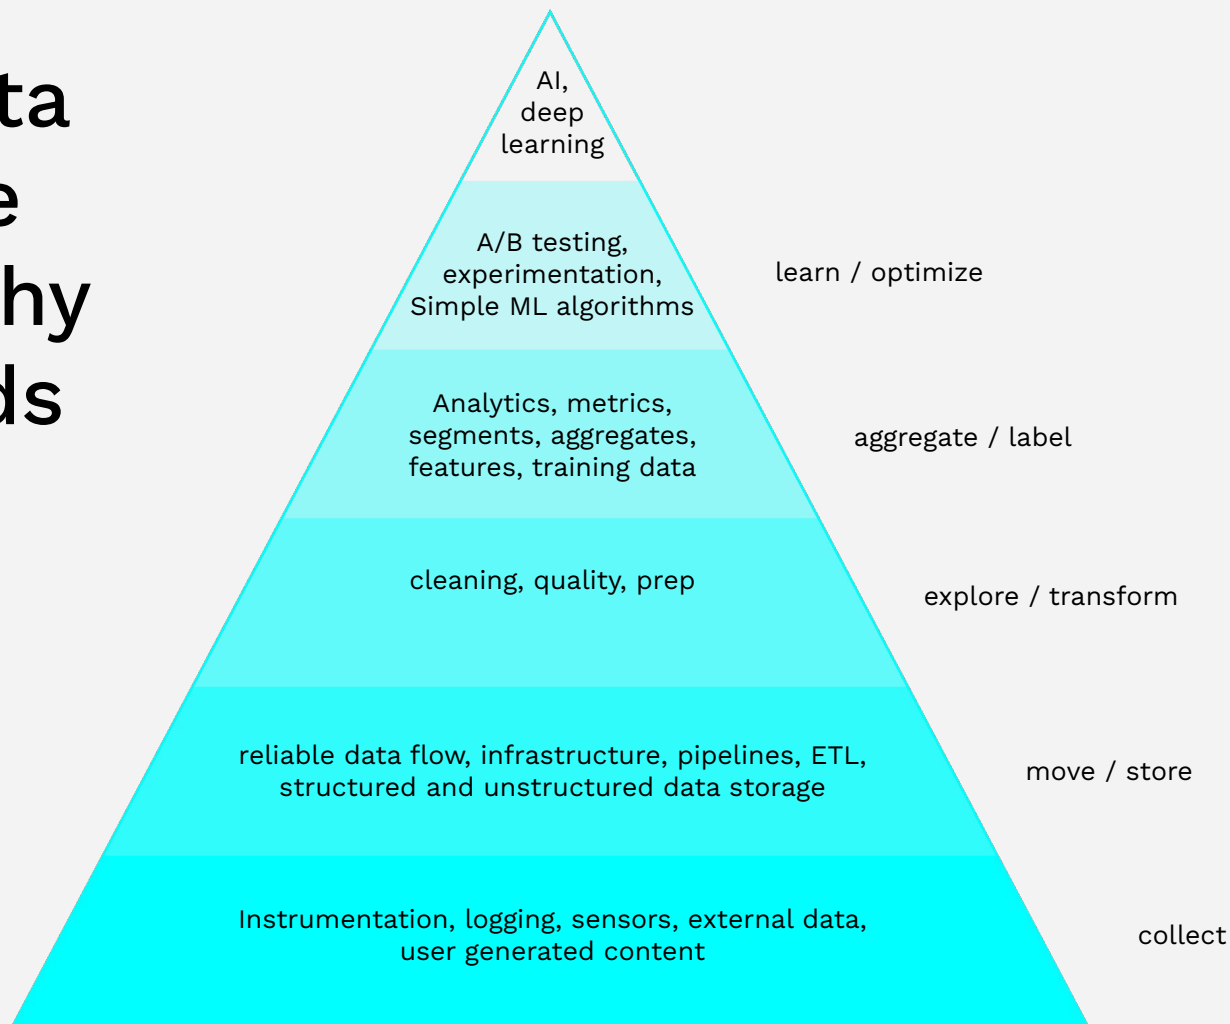

No DE no fun

Data engineering is essential

Infra & ML Ops

ML to be impactful needs
strong infrastructure and
processes

The data science hierarchy of needs

It is not only
about ML
Simple means
can deliver value
